**REMARKS**

**1. Provisional Nonstatutory Double Patenting Rejection**

In response to the nonstatutory double patenting rejection, Applicant concurrently  
5 submits a terminal disclaimer in the currently pending application number 10/713,944. Further,  
in accordance with MPEP §804(B), Applicant believes that the "provisional" double patenting  
rejection is the only rejection remaining in the present application and therefore this rejection  
should be withdrawn.

10 **2. Objection to Claims 17, 24, 25, and 26**

Applicant appreciates Examiner's indication of Allowable Subject Matter contained in  
claims 17 and 24. Applicant currently amends claim 1 to incorporate claim 24, and therefore  
subsequently cancels claim 24. Additionally, Applicant appreciates Examiner's indication that  
claims 25 and 26 would be allowed if rewritten or amended to overcome the 35 U.S.C. 112, 2<sup>nd</sup>  
15 paragraph, rejection. Applicant currently amends claims 25 and 26 to overcome this rejection by  
deleting reference to the heating system and the optimal flowrate. Thus claims 1-22 and 25-26  
are in a condition for allowance. Please enter these amendments to the claims without prejudice.  
Applicant respectfully traverses all rejections and will respond to such rejections in a yet to be  
filed co-pending related application or the currently pending application number 10/713,944.
